交通方式 Transport Information

◎開車

- 國道3號麟洛交流道→台1線→內埔市區→縣道187東行至縣道185(或國道3號竹田系統交流道→萬巒市區→縣道185)→選擇泰武入口(北)或武潭入口(南)進入佳泰公路，會合後抵泰武部落(庫拉路斯)，經「大武山之門」後沿產業道路最末端即可抵達登山口。
- 舊登山步道口(步道里程0.0K，與北大武山國家步道及日湯真山步道交叉處)因莫拉克颱風造成山崩無法開車抵達；新登山口距舊登山口約1.5公里，可分成兩種方式抵達：
 - 大崩地路線：沿莫拉克颱風崩潰處行走斜上切至舊車道，但碎石坡易鬆動且路跡不明狹窄，較具危險性但路程較短。
 - 新登山口高繞線：兩處入口，路跡明顯較易行走，惟路徑稍長，部分叉路口需注意。

◎By car

- National Highway 3 Linluo Interchange → Provincial Highway No.1 → urban Neipu → County Highway No.187 East to County Highway No.185. (Alternatively, from Zhutian System Interchange → Wanluan → County Highway No.185). At this point, you can choose the Taiwu entrance (north) or Wutan entrance (south) of the Jiatai Highway; either way, after reaching Taiwu Tribal Village (aka Kulaluce), pass through "Mt. Dawu Gate," take the industrial road, and you'll reach the trailhead at the end of the road.
- The old hiking trailhead (trail marker 0.0km, the intersection of the Fawan Taiwan Trail and the Mt. Ritangzhen Trail) is unreachable by car since Typhoon Morakot. The new trailhead is 1.5km away, with two routes for access:
 - Travel along the old road across the slip from Morakot, braving loose rocks and narrow, unclear paths along the shorter route;
 - The longer, but easier road route. Along this route, please watch for forks in the road.
